Professional Boundaries with Clients, with Colleagues

Professional Boundaries require us to hold a line in every situation, calling on us to be present & creative in each circumstance. It is paramount for staff working in people-related industries to appreciate and understand the complexities of safe professional boundaries. We'll explore various themes which help to deepen knowledge and skills in working safely, and with care.

Themes explored during this workshop include:

- Client - staff and collegial relationships
- Dual relationships and other complexities
- Roles we play
- Reasons that transgressions occur.

Using a professional boundary framework the facilitator will explore boundary crossings and violations in the continuum of over- and under- involvement. Psychodrama will be used to deepen participants experiential learning, helping them gain awareness and insight and to also accelerate the rate of integration of the material.
